## GOLF CARTS:

If the course is wet/muddy the Pro Shop will usually deem that carts must remain on the cart paths at all times (Cart Path Only). If the course superintendent allows us to drive on the course (90 degree rule), carts may drive on the course. There are usually directional signs (30-40 yds. in front of the greens) directing the cart to proceed left or right back to the cart paths, protecting the approach area in front of the greens. Even though sometimes there are no directional signs, common sense and common courtesy dictates not driving close to the greens. Golf carts should NEVER be driven ON the green, or in close proximity TO THE FRONT of any putting surface.
